

CALL FOR PAPERS

Welcome to the International Conference on Education and Science addressing the theme “**Challenges in Education and Science for the Regional Development and Digitalization of Kyrgyzstan**” to be held in May 29, 2020 in Osh, Kyrgyzstan organized by Osh State University. The conference is designed for the 80th anniversary of Osh State University.

The objectives of the conference are:

- Creation of a free scientific platform for discussing current issues and prospects for the development of education and science in modern conditions;
- Discussion of the prospects and challenges for regional development and digitalization of the Kyrgyz Republic;
- Sharing experience of specialists from various fields of science, technology and education;
- Discussion of research findings for the development of science in modern world;
- Development of international cooperation.

We welcome research papers to a broad range of questions and topics associated with the education and science from international and local community of educational researchers, scholars and practitioners. Submitted papers will be subject to stringent peer review and carefully evaluated based on originality, significance, technical soundness and clarity of exposition. The papers accepted and presented at the conference will be published in the University Bulletin indexed in RSCI database.

The conference program covers a plenary session, workshops and round table discussions.

Venue & Location: 331 Lenin Street, Osh State University, Osh, Kyrgyz Republic, 723500.

Date: May 29, 2020. Plenary session starts at 10 a.m., workshops and round table discussions begin at 2 p.m.
